Many forfeitures are about to accrue, from failure to pay taxes; many claims, otherwise good, will be barred by adverse possession of three years—that being the limitation; many titles of lands conveyed in the United States, cannot be admitted to record in Texas, for want of proper authentication. Owing to some one or other of these causes, the best lands are in a condition to be lost.

Having made it my business to become acquainted with all the laws relating to titles, and being determined to attend diligently to all claims confided to me, I retuire, in all cases, an advance in cash, sufficient to cover expenses of investigation. When that shall be done, I am willing to take at contingent interest in the lauds for attention and services.

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great senation throughout Europe, and are ditfacting crowds to see them, both it New York and Boston. They cure with astonishing rapidity rheumatism, gout, tie-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, of electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmanee Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warns the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

OREGON AND CHINESE WHEAT.—Just received a few sacks of the above new and superior seed grain, from H. R. Smeltzer, esq., of Bloomfield farm. The Oregon is a red kernel wheat, and the Chinese a beautitul plump white kernel. These extraordinary varieties produced Mr. S. last season 45 to 50 busnels of wheat per acre; weighing 63 to 68 lbs. per bushel.

63 to 68 lbs. per bushel.

"Orgon's AND CHINA WHEAT.—There have been left at our office two new species of wheat—one called 'Oregon', the other 'Chino.' It was taken from the Bloomfield estate, belonging to Henry R. Smeltzer, near Middletown, Frederick county, Maryland. The 'Oregon' wheat was found or discovered by a missionary travelling through that territory, who brought it to this country in 1839. Mr. Smeltzer this year raised from four and a quarter acres, 212 bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of a bescuiful red color, with smooth chaff, heads from 5 to 6 inches long, and average from 30 to 130 grains to the head. It is believed it will yield at least 20 per cent. more to the acre than the ordinary wheat, from the fact that it has from 15 to 20 grains more to the head. The history of the China wheat is rather singular. A few heads were found in a box of China-ware imported from the north of China; and the heads being so very large and compact, the discoverer was induced to plant them. Mr. 8. informs us that last year he raised 421 bushels per acre with it, and this year 47 bushels per acre. This is a beautiful white wheat, and has heads or ears about as long as the 'Oregon' wheat, and about the same number of grains to the head. The 'China' wheat is of the early kind, and, so far, has not been injured by smut, mildew, or fly."—Sien.

The faculty are gratified in being able to inform the community, that, in addition to the laboratory already attached to the college, arrangements have been made for opening a dental infirmary, which will go into operation the ensuing session, and be conducted on the most liberal principles.

It is designed to extend relief, gratuitously, to all those who are too poor to pay a dentist, by simply defraying the cost of the material used in repairing the teeth.

All operations on the mouth and face will also be performed without charge.

This infirmary, it will be perceived, is a purely charitable institution, extending the same relief to the dental apparatus of all the destitute poor, that medical infirmaries do to diseases of other parts of the body.

OOK OUT FOR BARGAINS! BARGAINS!

BARGAINS! at the old stand (but new store.)

The subscriber has just opened an immense quantity of new fall and winter dry goods. In the large assortment will be found those which are careed and desirable, and in point of beauty, richness, and cheapness, cannot be excelled.

As I have all kinds of goods usually kept in staple and fancy dry goods stores, it is useless to specify. To my regular punctual credit customers, goods will be sold on the same pleasing terms as the rectofore.

To cash customers, I would only add, give me a call, and the goods are yours.
